

Choose to pay your rent with direct debit (Autogiro)!

If you have a Plusgirot account or if you are a customer with Swedbank, Nordea, Handelsbanken, SEB, Länsförsäkringar Bank, ICA Banken or Skandiabanken then you can apply to have your rent deducted by direct debit.

Simple and reliable

Direct debit is the easiest way to pay your rent. You do not need to do anything else than ensuring that there is enough money in your allocated account. The money is being deducted automatically and the bill is paid on the due date.

This will happen

We will sign your account up for direct debit. Plusgirot will perform a credit check on you and if it is approved then the direct debit will be established. Approximately two weeks before the due date the rental invoice will be sent to you. On the invoice it will be noted that the bill is being paid by direct debit, you just need to ensure that there is money in the account before the due date. The payment will go through automatically and on your Plusgiro or bankstatement you will be able to see that it has been paid.

If you for some reason need to stop the payment automatically going through, then you can do so by contacting your bank or Plusgirot at least five working days before the due date on the invoice.
